Report-ing the situation!

We were attacked by an unknown assailant from directly above, the area sealing airship "Forwards" was destroyed and the area seal was forcibly disabled.

At the same time, all lighting devices on the island were destroyed. From now on, we'll be responding to this situation by using vision-aiding equipment and handheld illumination devices!

BEEP

sss manga.com

Request backup from head-quarters right now!

It's no use, there's no connection.

The control panel on the droids has been taken over!

It looks like all communi-cation with outside this area has been cut off!

.....

Hurry!

Go and check the vehicles!

You'll have to use the flashlight under the blockage!

Damn it...

This is completely nuts!

Why has it...

Come to this...

Heh heh heh...

Kiyomi?

Don't you think so, Melissa-sama?

This proves that thing is definitely valuable...

S2S
S2Smanga.com

It's too bad your little maid...

...is sleeping in another room.

Hey, hey...

Don't you make a ruckus.

You are...

!!?

I know everything already...

You and your brother, Sasaki Shijyuurou, are survivors from that incident 21 years ago, right?

After changing your names and returning to Yasogami, the reason was to find the "Numbers" again, right?

Why... Why do you...

Because Buru, that guy is really smart!

Besides...

There's nothing in this world that the three of us can't get.

And then hid it.

Next, you two finally found it...

...Originally we planned to threaten your brother Sasaki Shijyuurou, forcing him to confess and find it, then everything would have gone smoothly...

...But that guy unexpectedly died early!

Thanks to him, we had no choice but to use such a complicated method!

All right.

After coming with me, you'll point us in the right direction...

To the place where the "Numbers" is.

So that was your intention all along.

Damn!

ゴゴゴ

You...

You are...

ゴロ…

New Tesla's recovery man, right?

The offi-cial...

Ugh!

So what? Ha!

Cheap recovery men hired by private corporations or the like, right?

Then you guys are the unofficial...

It's a huge fish that's worth at least one hundred million.

There's no way we'll let you have it!

And this time's target is "Numbers."

That's all there is to it!

It doesn't matter even if the requester is a criminal organization, we work for whoever gives us more money!

S2Smanga.com

What do you mean "at least one hundred million"?

You haven't even seen the horrifying side of coils!

Bunch of idiots!

Amateurs can just get lost.

Shut up!

Tch!

!

Did you finish him?

Not yet...

Buru!

This way, Leide, hurry!

ヒュ〃

Buru!

.....

!!!

Eat this!

KA-CHUK

Good job, White.

Come up here...

Now!

WOOSH

Let's go, let's go!

S2Smanga.com

Tch!

Not so fast.

Ahh... They escaped, just like that.

Eh!

Eh!

Number Nine, Number Ten.

Chase them.

キィ"

How's the situation, Mabuchi?

Like this, we won't lose them.

If I didn't have this happi, I would've been finished.

...Are you all right?

T/N: A HAPPI COAT IS A TRADITIONAL JAPANESE STRAIGHT SLEEVED COAT USUALLY MADE OF INDIGO OR BROWN COTTON AND IMPRINTED WITH A DISTINCTIVE MON (CREST)

The middle layer is made of steel and iron needles.

ジャラ"

Those guys want the sister Melissa to take them there.

Just like we thought, the Sasaki siblings are aware of that coil.

What's that?

...There's only one way to know what that coil... the "Numbers" have to do with all these paranormal incidents beforehand.

We only figured out the truth because we saw that reconstructed footage.

But how did they know?

So in other words, those people already knew everything.

S2Smanga.com

I knew this brat also knew about "Numbers".

Kuroda Notebook?

Through the "Kuroda Notebook".

Kuroda... During the Yasogami protest against the construction of the dam 21 years ago, didn't he lend the coil... "Numbers" to his student?

Was he that professor?

Yes, that's right.

With how things are turning out, it can't be helped...

We can't afford to be so cautious anymore.

...Didn't we agree to keep it a secret, Eli-chan?

In his old age, he could only immerse himself in his paranormal phenomena research.

Because "Numbers" went missing, he was held responsible by the committee.

!

Yes, it's true.

Really!?

He's actually Midorikawa Misuzu-san's grandfather.

In the end, his results were organized in the "Kuroda Notebook".

He probably wanted to use his research as an excuse to fulfill his last duties.

He mainly researched ghost stories relating to Yasogami.

Well...

Before I found Misuzu-san, it was already...

Stolen!?

It was stolen.

The real reason I came here...

...And so where's that notebook right now?

Was to confirm Grandpa's research results.

Then, unlike us who can only move around aimlessly...

If that notebook is in those people's hands...

They will be in an extremely advantageous position.

It's nothing.

Ah, yeah...

Are you all right, Buru?

...Next...

I used the loophole in the security system and hijacked the satellite for eighteen seconds.

I couldn't maintain it for any longer.

Couldn't you just use the satellite weapon to burn them all to ashes?

Why don't you show us a "dream"?

.....!!

It's all written here in the "Kuroda Notebook".

Your "dream world" is the "key" that connects this world to another world.

We already know all about it.

!!?

S2S
S2Smanga.com

How you went to Professor Kuroda to talk about your "dreams"...

How you came back to this place and negotiated with "them"...

And how, ever since, there haven't been any more direct deaths.

K.K

Don't...

Don't say it...

Don't say anymore!

"They" made a mistake...

After noticing our actions, to keep "Numbers" a secret, they killed Shijyuurou and Hageyama but left you alive.

That's because you are still attached to this world, and so, you are the "key".

...Luckily, we're not interested in your past.

What happened 21 years ago, or why you have "dreams".

Stop!

I beg you!

...!!

That's why you will show us a "dream".

IZZZ

Want "Numbers".

...We just...

To the "Numbers" that appears in the fog.

To show us the way.

Go through the bridge!

The bridge!

What should we do, chief?

...My car should be fine, right...?

But the lights on the vehicles are also...

Use your feet and walk over!

Then run over!

Probably...

After leaving this island, we should be able to reestablish communications and request backup from headquarters...

S2Smanga.com

They're moving too fast...

I'm tracking them now! Be patient!

Where are those guys now?

How much of your grandpa's notebook do you remember?

He didn't let me look at it so... I'm sorry!

...There's someone who could catch up to them quickly, even in this situation...

What should we do next, Mabuchi?

I don't want to admit it, but if we had her help now...

Waaaah

How would I know?

Is something wrong? Was she also killed?

That kid?

Are you talking about Mira-chan?

Speaking of which, she hasn't shown up for quite a while.

...

Fog...

Ah...

!?

A thick fog is coming this way!!!

S2S
S2Smanga.com

It looks like my sister is having nightmares again.

...This scent...

To connect with reality...

In order for this world of memories that was created in Dimension W

...This is all punishment for our sin...

And my other half will be forever left in the past.

...The sister will be tormented by the unforgettable past

This is the curse cast upon us, brother and sister...

!!?

ｱｵ ｩｨ

?

...Fog?

It's the fog!

The fog came!

Yeah!

Ha ha!

Kill them all!

Kill her!

....!!

Ah ha ha

Kill her!

Heh heh!

S2S
S2Smanga.com

Are you still alive?

Or are you already dead?

Ah ha ha!

I'll ask you one last time.

Why?

Why did the hate develop to this level!?

No matter what the method of birth is...

As long as you can communicate with me while your body is intact in the real world...

If I had to say so...

The... The me right now is only a written program... So...

I will protect this world.

No one can say it's just a creation, I will not allow it.

!

Of course that also includes you.

Or whether it's other enemies, I will kill them all.

Whether it's myself...

For this goal...
